Young Lady's 'Spider' Phaeton. Close hood. For use with single horse. In former days, scores of famous Carriage Builders devoted huge factories to the prideful production of handsome vehicles. Every one of these makes is usually represented in the wide selection always on hand. To mention but a few: VAN TASSEL & KEARNEY (Est. 1867); HENRY HOOKER & CO. (Est. 1830); BREWSTER & HEALEY (Est. about 1850); DEMAREST (Est. about 1840). These products still retain evidences of the magnificent craftsmanship which entered into design and construction! The illustrations in this brochure are reproduced from originals as appeared in the catalogs issued by these famous manufacturers.
